THE ARCADE CLASSIC IN A KEYCHAIN!

Once again, a triumphant Mad Bomber will be gloating when you miss bombs! The classic video game (have bucket, will travel) is back. Play it again — or if you're playing it for the first time, you're in for a real treat! But be warned, the action is **E-X-P-L-O-S-I-V-E!**

OBJECT OF THE GAME

It is a 1 player game. The object is to catch as many bombs as you can in your bucket — and to score as close to 9990 as possible.

You begin with 3 buckets. When you miss a bomb, all the bombs **E-X-P-L-O-D-E** and you lose a bucket. Lose all 3 buckets and it's **GAME OVER**. Sound simple? It's not — as you will soon see!

HOW TO PLAY

Press the **ON/OFF** button to turn on the game. You'll hear a **"BEEP!"** and the highest score attained will be displayed.

Press either the **"A"** or **"B"** button to begin play. The bombs start dropping!

Press either the **"A"** or the **"B"** action buttons to start over after a miss when you haven't run out of buckets! Buttons A and B have all the same functions.

Press the **"<"** or **">"** arrow keys to move the buckets left or right.

But sooner or later, **K-A-B-O-O-M!!!** You're going to miss a bomb. When you do, all the bombs on screen explode and you lose a bucket. The Mad Bomber will express his happiness!

Then, depending on which bomb group you're in when you miss, the level of difficulty of the next bombs dropped are affected as follows:

— When you miss at Bomb Group 1, there is no change in difficulty. Your next bombs will still be Group 1.

— If you're in Bomb Group 2 or above when you miss, you will restart play in group lower than the one you were playing when you missed. But you'll only need to catch one-half the number of bombs normally in that level before making it back to the level at which you missed.

Here's an example: You miss a bomb in Group 4. So you re-start in Group 3. But you only need to catch 15 bombs (half the normal amount for Group 3) to regain the Group 4 level. See the scoring chart for full details!

Bomb Group 8 is the highest level. Once you reach this level, all bombs that follow will fall at the same rate of **SPEED** and are worth the same **POINTS** as bombs in Group 8 (unless you miss a bomb!)

You can also **REPLACE LOST BUCKETS!** For every 1,000 points you score, you will be given a new bucket (if one or two are missing). However, you may **NEVER** have more than three buckets and no additional buckets are awarded if you reach another 1,000 points with no buckets missing.

So, how many bombs can you catch? How many points can you score?

PRESS EITHER THE **"A"** OR THE **"B"** BUTTON TO START THE GAME AND EACH BOMB RUN!

BOMBS AWAY! HOW FAST CAN YOU MOVE? USE THE LEFT AND RIGHT BUTTONS TO MOVE YOUR BUCKETS LEFT AND RIGHT TO CATCH THE FALLING BOMBS!

KABOOM! ANOTHER BOMB SLIPS PAST YOU! WHEN BOMBS EXPLODE IN "BOMB GROUP 1" YOUR DIFFICULTY LEVEL STAYS THE SAME.

BUT WHEN YOU'RE TOO SLOW AND THE BOMBS EXPLODE IN "BOMB GROUP 2" OR IN ANY HIGHER LEVEL GROUP, YOU HAVE TO RESTART ONE GROUP LOWER! BUT DON'T WORRY, YOU CAN MOVE BACK UP!

WHEN YOU EXPLODE THE BOMBS IN GROUP 2 OR ABOVE, YOU RESTART ONE GROUP LOWER.
